OUR LABORATORY:

INTER.MED Laboratoires manufactures, distributes and develops single-use medical devices for the hospital market throughout France.

Through constant collaboration with care teams, we develop high quality devices which optimally meet the needs of health facilities. INTER.MED Laboratoires is continuously evolving and provides support through its visits, professional training and supply of medical devices to help care for patients’ wellbeing.

OUR MEDICAL DEVICES ARE DIVIDED INTO 2 RANGES

- Mouth care range (Mouth care devices and Oral aspiration device for Medical Care)
- Patient Environment range (Safety, Hygiene and Medical Devices)

ORGANISATION & QUALITY MANAGEMENT

A few important facts:

- Manufactured in our premises (France)
- Storage in a pharmaceutical repository
- Daily deliveries of orders on D+6 max
- Centralised payments
- Export platform

We are constantly concerned about the organisation and successful development of our company and actively take part in the Quality Assurance Management system. We are ISO 9001 (2008) and ISO 13485 (2012) certified.

Our devices meet the requirements of Directive 93/42/EC (CE marking).

We ensure customer satisfaction through an annual survey with satisfaction rate in 2013 of 98%, and that our products are suitable for the needs of care workers by clinical monitoring, with a satisfaction rate of 95%.

REFERENCES

Listed by French National and Regional Groups/Retailers/Hospital Procurement Centres. INTER.MED Laboratoires has a presence throughout France, the overseas Departments and Territories and bordering countries, and serves all public and private hospital facilities, from the EHPAD (residential homes for the elderly) to University Hospitals and individual people.

## White foam, double surface tip, plastic stem.

### Use:
- For an efficient oral care: daily cleaning of damaged oral cavity.
- To be connected to the medical aspiration device.
- Adapted for right and left-handed people.
- Destinatated to all public, to public and private hospital facilities, to EHPAD (residential homes for the elderly) to University Hospitals and individual people fitted with medical aspiration devices.

### Using advices:
- Connect directly the Aspirobat® to the medical aspiration device.
- Soak the foam with a medical solution, for example bicarbonate of soda.
- Realize the oral care according to your constitution’s protocol or to INTER.MED Laboratoires’ protocol proposed (available on request).

### Technical securities:
- Manufactured in our premises (France), according to strict specifications with approvals and controls of raw materials (foam, stem and glue), control of manufacturing and tests of mechanical conformity of lots.
- Our devices meet the requirements of Directive 93/42/EC (CE marking- Classe Iia) and European Directive 2002/72/CE.
- Our devices meet the requirements of European Directive 2002/72/CE.

### Medical disposals used itself, by a formed nurse.
- Single use disposal. If reused, there are risks of infection and injuries.

### Certifications:
- Declaration of manufactured products among the ANSM organisation

### Characteristics:
- Closed cell polyurethane foam, French origin, silky contact = white colored
- Open cell polyurethane foam, French origin, rough contact = blue colored
- Without CHC ni HCFC
- Plastic stem in PE coude – angled - 15 cm (Ø6mm) – white colored
- Angled connector system, with a hole on the side for a better aspiration and to avoid wounded tissues.
- Ergonomic and instinctive connector system.

### Using advices:
- Connect directly the Aspirobat® to the medical aspiration device.
- Aspirate secretions putting your thumb on the blue connector system.

### Ref C355:
- Box of 100 ASPIROBAT® (5 sachets of 20 aspirated swabs)
CERTIFICATIONS – MARKING
